

Annunciation Greek Orthodox Church

Pledge of Treasure

The early Christians would make weekly offerings to the church in order to thank God for his benevolence. Our new Stewardship Program attempts to recreate the habit of weekly offerings. In order for us to pay for our parish's operations and ministries, we simply divided the operating budget (\$900,000) by the number of stewards (470). The average pledge comes to \$1,915 per steward. This reflects an amount of \$37 per steward per week. We understand that to some this number is too low, and to some this number is too high. The purpose for listing it is to make everyone aware of how much it costs to operate our church. Remember that we are working toward becoming a **True Stewardship Parish**.

Please mark the weekly amount you would like to pledge. This will represent your weekly thanksgiving to God. It is important for the week to week expenses of the church. You can decrease your weekly offering amount by submitting a larger amount at the beginning or end of the year. This will make your weekly offerings smaller.
